

NEW RANGE OF RAV 3D WHEEL ALIGNERS

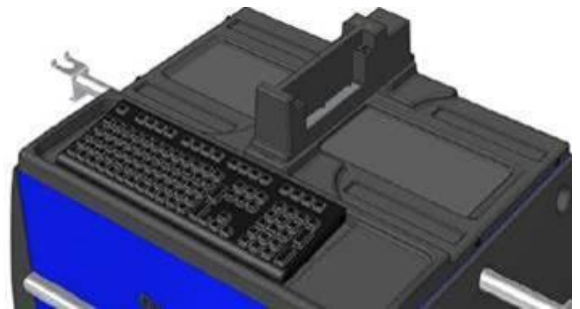

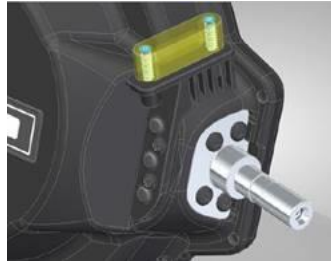

Dear RAV Partner,

following the success of our RAV 3D aligners, our engineers have redesigned the range, to offer you and your customers even more features and flexibility at competitive prices.

Along with the “classic” and best seller RAVTD3000HP.B (closed cabinet, cameras with led repeaters and display, 22” flat screen, 3-point fast clamps), we are now introducing 3 new models.

Please find here below a brief description for each new model being introduced:

RAVTD3000HPR – Premium range model

RAV new “PREMIUM” version, deriving from the existing HP model and offering the following additional features:

- spirit level on targets
- wi-fi dongle
- ADAS ready (no need of additional software token)
- STDA128 Extra batteries set
- Mouse and mouse pad
- 2 years free database update
- STDA141 Alignment connect ready (no need of additional software token)

RAVTD3000HP.B – RAV best seller (configuration remains unchanged)

RAVTD3000SP – Mid range model

An attractive and affordable mid-segment version, replacing the previous RAVTD3000S.B:

- Closed cabinet similar to our RAVTD1780WS;
- S110A7/P turntables with plastic fillers.

The following features are the same as for the previous “S” version:

- 4 point clamps with grabbing arms (with the possibility to be ordered with STDA35E/NRC/S 3 point fast clamps instead);
- Cameras without LED lights and without display.

Standard

optional (STDA35E/NRC/S)

RAVTD3000L – New RAV entry level

RAV new entry level version, replacing the previous RAVTD3000.B, with the following improvements:

- S110A7/P turntables with plastic fillers
- Front panel to close the computer compartment, with logo sticker in the front;
- Possibility to skip run-out compensation **with optional clamps** (2x STDA38 grabbing arms sets converting standard 4 point clamps or 1x STDA35E/3000/S replacing standard clamps).

Standard

STDA38 (optional)

STDA35E/3000/S (optional)

All our RAVTD3000 series wheel aligner versions (**HPR, HP, SP** and **L**) are now:

- **wireless**: totally wireless installation and wireless communication between the computer and the lift / sensor heads;
- **roll-free**: now also the new entry level (L version) can be equipped with optional grabbing arms clamps (4 point or 3 point) to avoid rolling compensation;
- **tower-free**: much smaller footprint for the alignment bay, compared to any other 3D aligner available today on the market;
- **portable**: the aligner can be used in multiple bays in the shop, even on the floor in the reception area, thanks to the portable cameras and the smartphone/tablet control possibility;
- **fast-check-ready**: built in fast check software mode, for a quick diagnosis, anywhere in the shop;
- **connected**: smartphone/tablet control, thanks to optional ALIGNMENT CONNECT app (STDA141, standard with RAVTD3000HPR);
- **PROFILER-ready**: possibility to integrate our RAVWS103 tyre thread depth reading system with the alignment computer/software. Limited additional space and investment needed.

Please do not hesitate to contact us for further information.

Best regards,

Ravaglioli S.p.A.
