

10900

TANK CAPACITY:	90L
CONTROL TANK CAPACITY:	8L
CAPACITY TO FILL WITH LIQUID:	65-70L
VACUUM AIR PRESSURE:	7-8 BAR
SEALING TIME:	150-180S
SUCTION EFFICIENCY:	1,5-2L/MIN
LW. SUCTION CABLE:	2000 MM
SPINDLE BOWL CAPACITY:	18L
CUP DIAMETER:	400MM
MAX HEIGHT OF THE SINK BOWL:	1700MM
MIN. HEIGHT OF SINK BOWL:	100MM
MAX. MOLD VOLUME:	70L
MAX.GUMING PRESSURE:	1BAR
LW. DRAIN PIPE:	2000MM
AIR INLET FITTING:	1/4"
QUICK COUPLER:	1/4" NPT FEMALE
WEIGHT:	43 KG

Combines the features of a sink and an oil suction device ♦ For vacuum draining of systems with oil and other liquids ♦ For gravitational decanting of used engine oil, gearboxes, differentials of all types of vehicles ♦ Equipped with 6 probes suction (flexible and metal) ended quickly connectors ♦ Including tips adaptive to BMW and VW cars ♦ Throught to the transparent tank control allows immediate control of the amount and condition of oil removed from the system ♦ Adjustable height of the sink bowl allows you to adjust its position under the drain cock position or lift height ♦ Easy and clean oil removal thanks to the automatic emptying function
